## Internship

---

### Outlier AI

#### Freelancer (Remote)

- Executed AI model training and data labeling with 99% accuracy, improving AI model performance by 15%.
- Managed large datasets with over 100,000 data points, optimizing labeling processes by 20% through automation tools.
- Collaborated with cross-functional teams via Discourse, resolving project challenges in a remote environment with 100% task completion

## Projects

---

### Food Wastage and its management:

Nov 2024

- Designed an interactive Tableau dashboard to visualize food wastage across various events like parties, weddings, and gatherings, using Excel for data collection and processing. The dashboard provides insights into wastage patterns, key contributors, and potential areas for reduction, aiding better food management strategies.

### Tic-Tac-Toe Game Application:

- Developed Tic Tac Toe game using HTML, CSS, and JavaScript, demonstrating proficiency in web development.
- Designed an interactive user-friendly interface with real-time game logic and dynamic UI updates.

### Online Groceries Website:

- Developed an online grocery platform with user authentication, product search, shopping cart, secure payments, order tracking, and admin dashboard for efficient management.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, RESTful APIs, Firebase.

## Certificates

---

### Data Structures and Algorithms - Self Paced

June 2024

- The Data Structures and Algorithms - Self Paced course equips learners with essential DSA concepts, including arrays, trees, graphs, sorting, searching, and dynamic programming, to enhance problem-solving and coding skills.

### The Bits and Bytes of Computer Networking:

Nov 2023

- The Bits and Bytes of Computer Networking course covers the five-layer networking model, TCP/IP protocols, network troubleshooting, DNS and DHCP services, and cloud computing concepts, equipping learners with essential networking skills.

## Technical Skills

---

**Languages** C++, Java, JavaScript

**Technologies/Frameworks:** Angular, Jasmine Testing, React JS, Node JS, Git, GitHub, Ubuntu

**Skills:** Data Structures and Algorithms, Problem-Solving, Responsive Web Design, Scripting in Python and JavaScript

## Education

---

### Lovely Professional University

Jalandhar, Punjab

Computer Science and Engineering

Since August 2022

### ABR Foundation School

Sasaram, Bihar

Intermediate (CBSE)

2020– 2022

### ABR Foundation School

Sasaram, Bihar

Matriculation (CBSE)

2020
